NURI

NURI Protocol.

Stake from $10. Earn every day. Hold a token whose price only goes up.

Business presentation · nuriprotocol.com

ABOUT

What is NURI Protocol?

- A **staking platform** on BNB Smart Chain. You stake USDT and earn a reward **every day**.
- Invite others and earn from your **team**: direct income, 30 levels of generation income, ranks and a weekly DAO pool.
- It mints its own token, **NURI**, with a price that **only rises**: on every stake and on every sale.
- 100% smart contracts. **Ownership renounced.** No company can change the rules or touch the funds.

For you: a daily income, a growing team, and a token that grows in value while you sleep.

THE OPPORTUNITY

Six ways to earn. One rising token.

DAILY REWARD

1.25%

of every stake, every day, up to 2X

DIRECT INCOME

5%

of every stake of your directs

GENERATION INCOME

31%

of your team's daily rewards, 30 levels

RANK REWARDS

$125,000

one-time rewards, Photon to Universe

RANK INCENTIVE

up to 35%

of your team's daily rewards, any depth

DAO POOL

5%

of every stake, shared every Monday

And the NURI you hold rises in price with every stake and every sale on the platform.

THE NURI PRICE

Think of a jar and a stack.

- NURI keeps a **jar of USDT**. We call it the **pool**.
- And there is a **stack of NURI tokens**. We call it the **supply**.
- The price of 1 NURI is simply the jar divided by the stack: **Price = pool ÷ supply**.
- No exchange sets this price. No trader. No chart. Only the smart contract, with math that nobody can change.

More in the jar, or fewer in the stack, means a higher price. NURI does both.

WHY IT ONLY GOES UP

Someone stakes? Up. Someone sells? Up.

1 · SOMEONE STAKES $100

$10 goes to the ecosystem fund. **$90 goes into the jar.**

New NURI is added to the stack, but only for **$72** worth. The jar grows more than the stack.

Jar: $900 → **$990** · Stack: 90,000 → 97,200

Price: $0.01 → $0.01019 ↑

2 · THEN SOMEONE SELLS $100 OF NURI

The seller gets **$85**. **$15 stays in the jar.**

Every NURI sold is **burned for good**: the stack shrinks by 100%, the jar by only 85%.

Jar: $990 → **$905** · Stack: 97,200 → 87,382

Price: $0.01019 → $0.01036 ↑

Whatever people do, buy or sell, the price of the NURI you hold climbs. Day after day.

WHY YOU CAN TRUST IT

Written in code. Locked forever.

- NURI runs on **BNB Smart Chain**, in smart contracts. No office, no bank, no middleman.
- **The ownership is renounced.** Nobody, not even the team, can change the price formula, the rewards or touch the pool.
- Every rule and every payment is **public on BscScan**, verified, open to anyone.
- What you read in this guide is exactly what the contract does. Nothing more, nothing less.

GETTING STARTED

Four steps.

1

Connect

Open the app on nuriprotocol.com and connect your wallet.

2

Join

Join with your inviter's link. No link? You join under the default wallet.

3

Stake

Stake USDT. From $10 up to $1,000 per stake.

4

Claim & withdraw

Claim your rewards every day and withdraw when you like.

STAKE

Start with just $10.

- Each stake is from **$10** to **$1,000**, in steps of $10.
- Make as many stakes as you like. Each stake earns on its own.
- 10% of every stake goes to the ecosystem fund. The other 90% goes into the pool and lifts the NURI price.

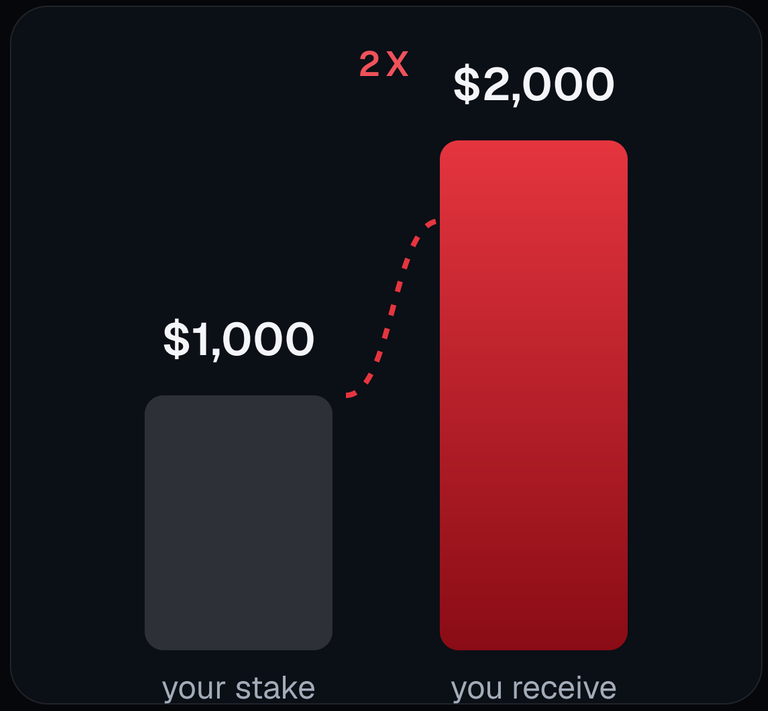

DAILY REWARD

1.25% every day.

- Every stake pays you **1.25%** of its amount every day.
- It keeps paying until you have received **2X** your stake.
- Claim whenever you like. Each stake has its own 24-hour clock, so it is best to claim just after a new day is ready.

Example: stake $1,000 → $12.50 a day → $2,000 in total, in about 159 days.

You stake once. It pays you every single day.

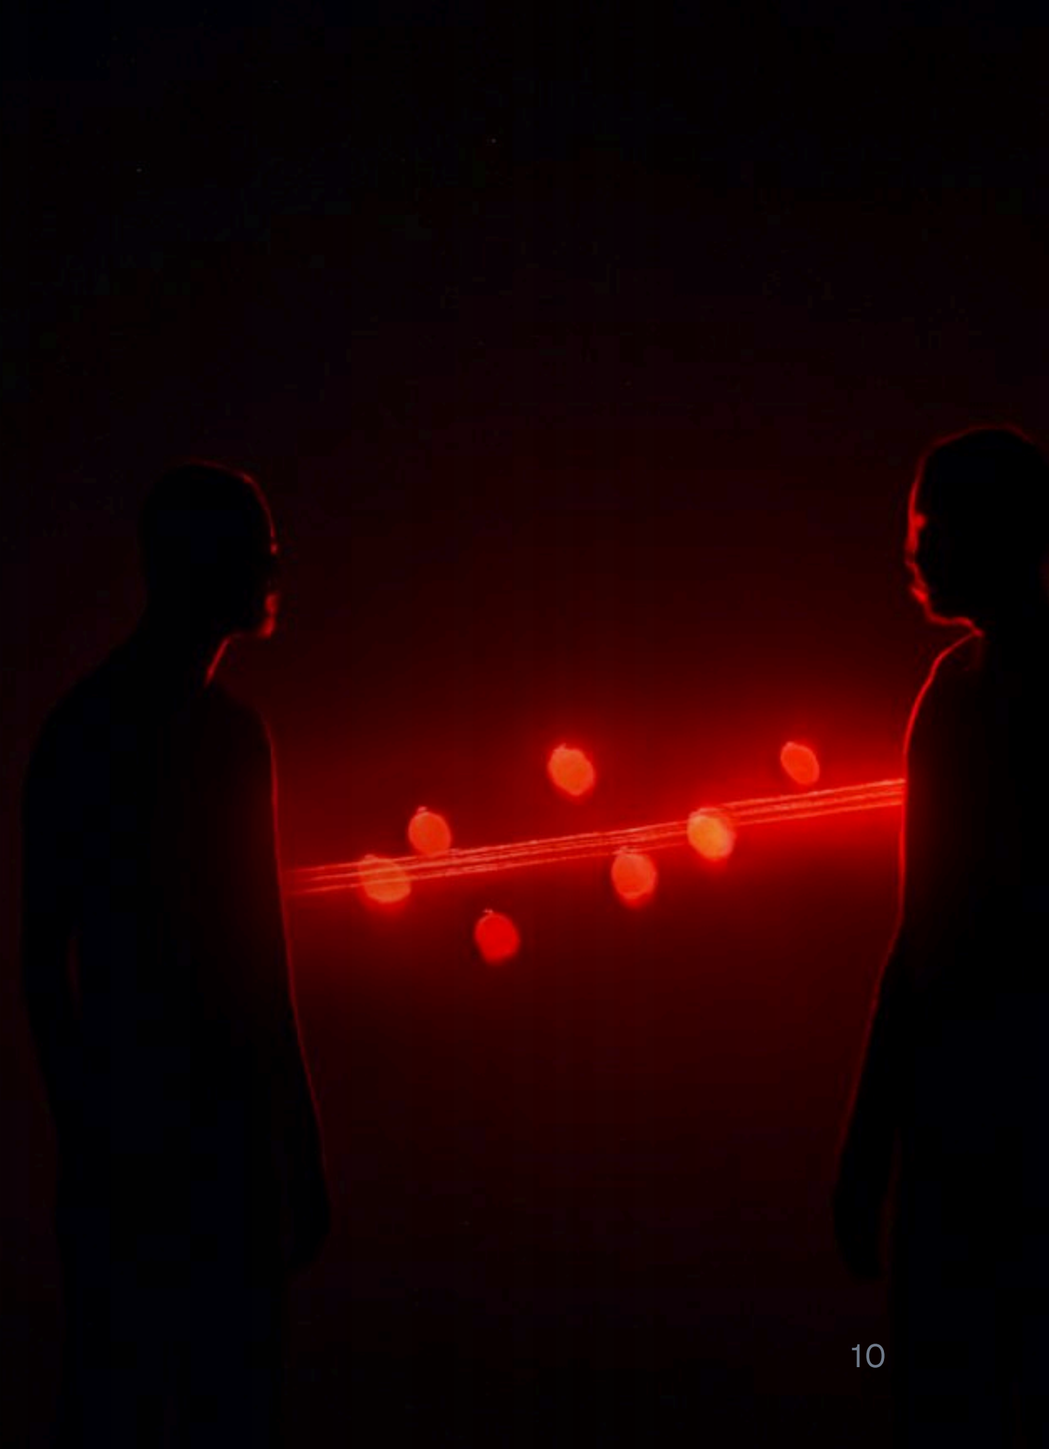

DIRECT INCOME

5% of every direct's stake.

- Invite a friend with your link. They are your **direct**.
- Every time a direct stakes, you get **5%** of it, at once.
- Your direct stakes $1,000 → you get **$50**.

Share your link. Every friend who stakes pays you, instantly.

GENERATION INCOME

31% of your team's daily rewards.

- Your directs, their directs, and so on, are your team: **30 levels** deep.
- Every time someone in your team claims their daily reward, you get a share of it.
- All 30 levels together pay you **31%**.

Your team earns every day. So you earn every day, 30 levels deep.

LEVEL	YOUR SHARE
1	10%
2	5%
3	3%
4	2%
5 – 6	1.5% each
7 – 10	1% each
11 – 20	0.3% each
21 – 30	0.1% each
All 30 levels	**31%**

OPENING THE LEVELS

More directs, more levels.

- Your own stake must be at least **$50**.
- Each direct who has staked **$50** or more opens 2 more levels for you.
- With **15** such directs, all 30 levels are open.

DIRECTS WITH $50+	LEVELS OPEN	YOUR SHARE
1	1 – 2	15%
2	1 – 4	20%
3	1 – 6	23%
5	1 – 10	27%
10	1 – 20	30%
15	All 30	**31%**

RANKS

From a Photon to the Universe.

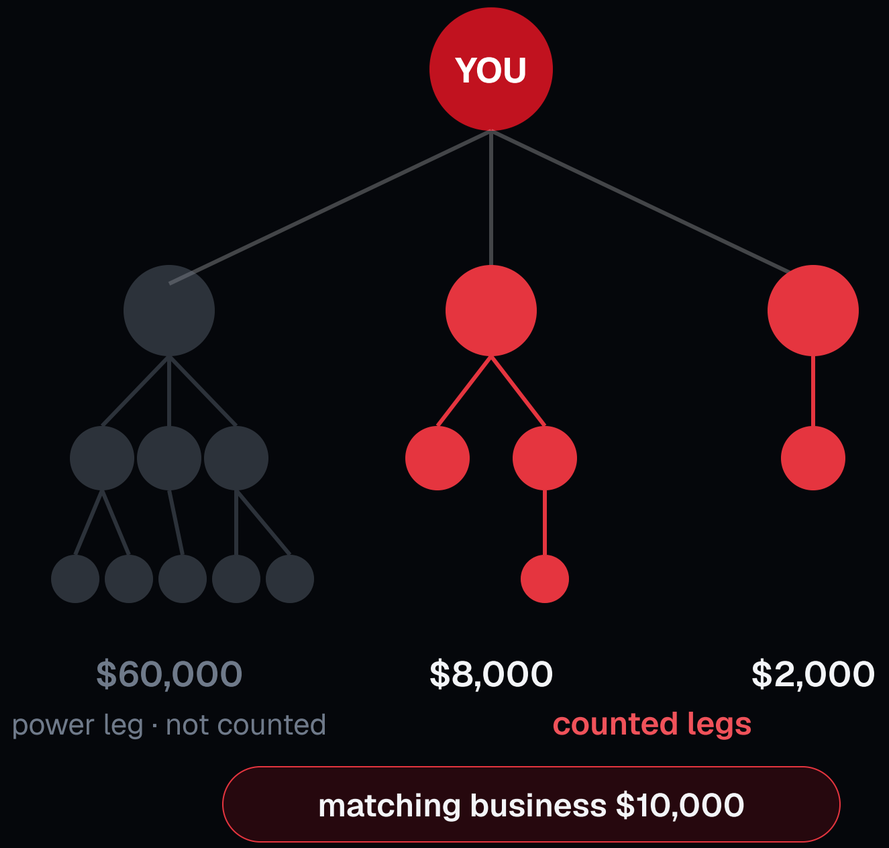

Nine ranks. Reach the targets and the rank is yours, with a one-time reward from Comet onwards. Every rank on the way is paid: $125,000 in all. No time limit.

RANK	YOUR STAKE	DIRECTS	MATCHING BUSINESS	INCENTIVE	ONE-TIME REWARD
Photon	$100	3	$5,000	8%	—
Meteor	$200	5	$10,000	10%	—
Comet	$300	7	$25,000	12%	$500
Moon	$400	9	$50,000	15%	$750
Planet	$500	11	$100,000	18%	$1,750
Star	$600	12	$250,000	20%	$5,750
Nebula	$700	13	$500,000	25%	$11,250
Galaxy	$800	14	$1,000,000	30%	$25,000
Universe	$1,000	15	$2,500,000	35%	$80,000

MATCHING BUSINESS

Your other legs count.

- Each direct, together with their whole team, is one **leg**.
- Your biggest leg is your **power leg**. It does not count.
- All your other legs added together = your **matching business**. This is what ranks and the DAO look at.
- Nothing is lost: there is no time limit, and extra business carries forward.

RANK INCENTIVE

Lead, and earn with your team.

- With a rank you get a share of your team's daily rewards, down to any depth.
- The share grows with your rank: from **8%** at Photon to **35%** at Universe.
- It comes from all your legs except your power leg.
- It counts inside your 3X limit.

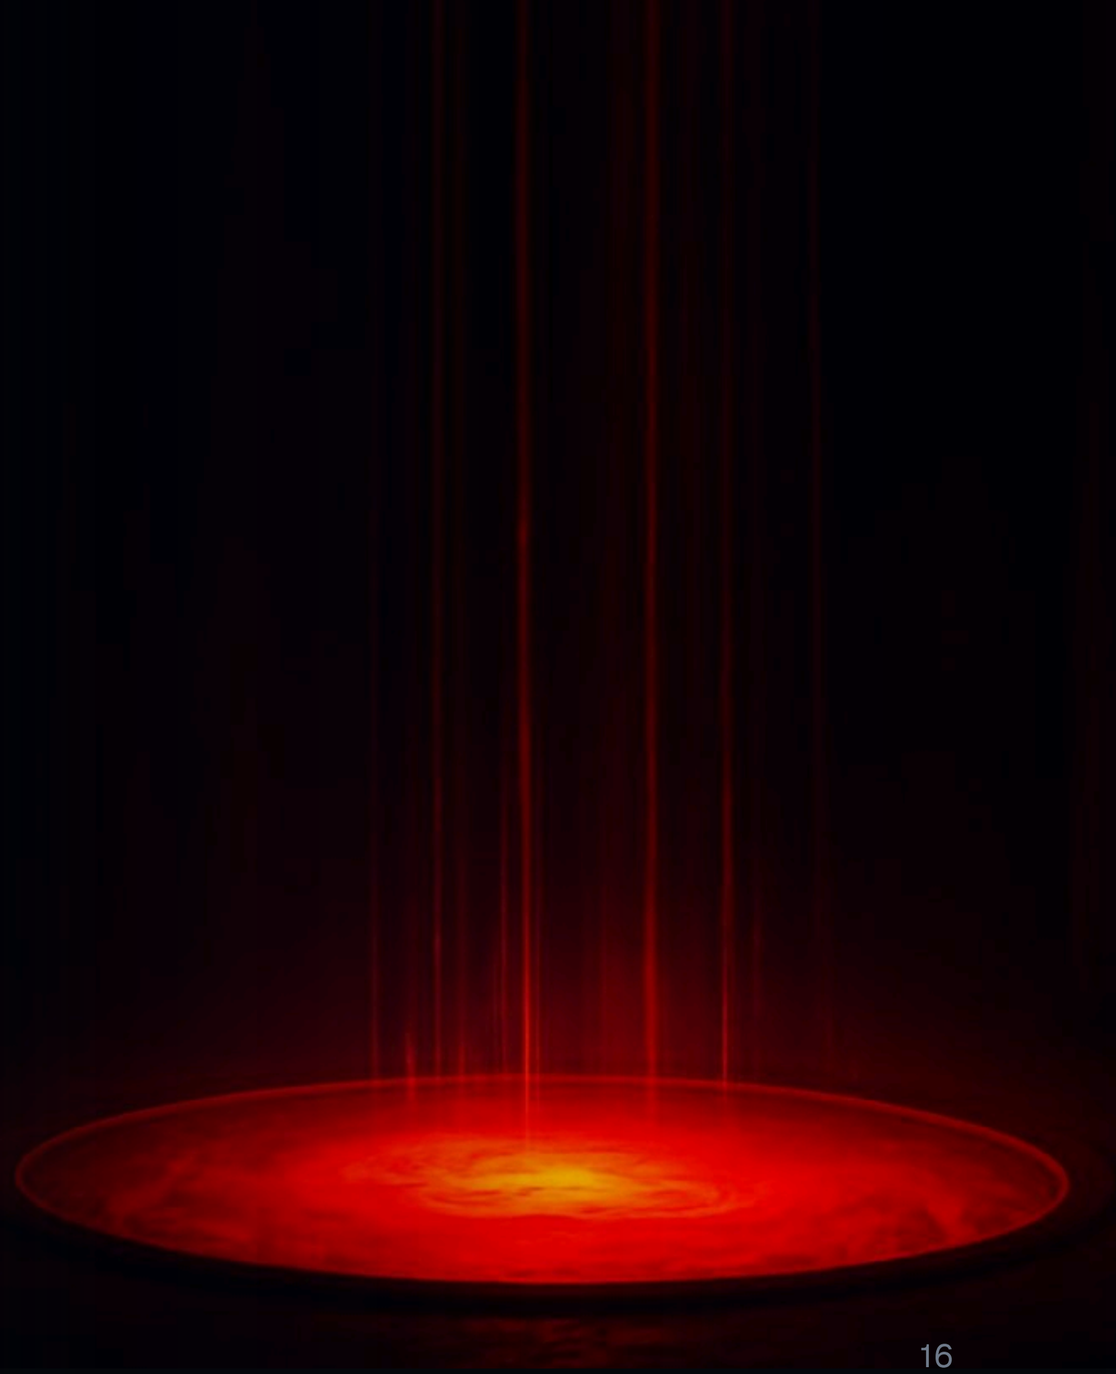

DAO PARTNER PROGRAM

A pool that pays every Monday.

- **5%** of every stake goes into the DAO pool.
- Become a partner within **20 days** of joining: **$3,000** of direct business, or **$10,000** of matching business.
- A partner holds 1 permanent share, plus 1 share for every **$2,500** of matching business that week (at least $2,500 in the week to be paid).
- Every Monday the pool is shared among the partners, by shares. Outside the 3X limit.

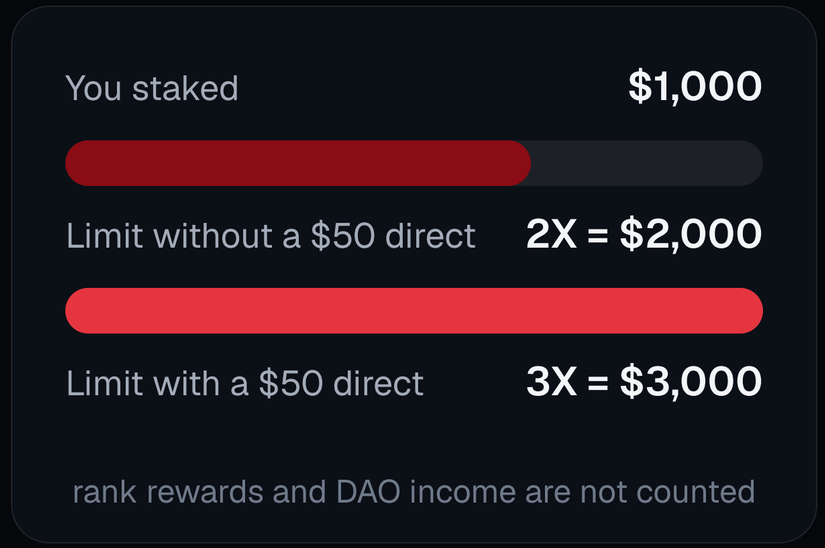

Build fast in your first 20 days and get paid from every stake on the platform, every week, for life.

YOUR LIMIT

Up to 3X of what you stake.

- Daily rewards, direct, generation and rank incentive together stop at **2X** of your total stakes.
- Once one of your directs has staked **$50** in total, your limit becomes **3X**.
- Rank rewards and DAO income are **outside** the limit.
- Reached your limit? A new stake opens it again.

WITHDRAW AND SELL

Your money, your way.

- **Withdraw** your income as NURI tokens. Fee 5%. Minimum $10, up to **$3,000 a day**.
- **Sell** NURI for USDT in the app whenever you like. You get **85%** of the value, up to $3,000 a day.
- Or simply **hold your NURI**: every stake and every sale by anyone pushes its price higher.

Your income is yours. Take it out, or let it grow.

WITHDRAW

Income → NURI

5% fee · up to $3,000 a day

SELL

NURI → USDT

you get 85% · up to $3,000 a day

WHY PEOPLE JOIN NURI

Three reasons to start now.

- **Income from day one.** 1.25% every day on every stake, from just $10.
- **A token that only climbs.** Every stake and every sale on the platform pushes the NURI price up. The earlier you hold, the lower your price.
- **Nothing can be changed.** The rules live in a renounced smart contract on BNB Smart Chain, public for anyone to check.

Six ways to earn. One rising token. Zero middlemen.
